Authorization for this examiner's amendment was given in a telephone interview with John Gladstone Mills III (49,054) 202-404-1553 on 2 December 2003.

The application has been amended as follows:

- (a) in the abstract, "consisting of a anisotropic thin superconducting oxide film" on lines 3-4 has been deleted (since the absorber comprises materials such as a metal; see Table 1 and 2 in the specification); and
- (b) on pg. 5, "11" on line 11 has been replaced by --11a--.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: addition of original reference character 325 missing in Fig. 7 and addition of original reference character 410 missing in Fig. 15 (see original Figs. 7 and 15). In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The information disclosure statement (IDS) submitted on 9 August 2001 was considered by the examiner and a copy was attached to the office action mailed 31 December 2002. However it appears from applicant's comments that this copy of the IDS was not received, thus another copy of the IDS is included as an attachment.
